

Stumpastaken candlestick

MADE OF RECYCLED ALUMINIUM

The stringent and functional design of Stumpastaken enables you to use all your old candles. Stumpastaken gives you the opportunity to use the candles to the very last drop without risking spots of stearin on the table. Naturally you can also use new candles as well as tea light candles.

Stumpastaken gives room for up to sixteen candles - light all of them or just a few, the same kind or mix different sizes and colours. When lighting your candles, you create a large block of flames that spread a comfortable heat and a harmonic light you can't achieve with a regular candlestick. You can place Stumpastaken on the table, in the fireplace, on the barbecue, or wherever it is safe.

Comes in a box with environment friendly colour print.

Design - Jonas Torstensson, made in Sweden

Material - recycled aluminium, casted

Size - 30 x 30 x 4 cm (11.8 x 11.8 x 1.4 in), weight 3 kg (3.6 lbs)

Stumpastaken accessories

The Grating

To be placed on top of The Stumpastaken.
The plate warmer for food or hot drinks lets you keep your food or teapot hot and within reach when placed on the table or on a buffé.
To be used together with tea light candles.

Material - steel, 3 mm (0.1 in)

Height - 7 cm (2.75 in)

The Stand

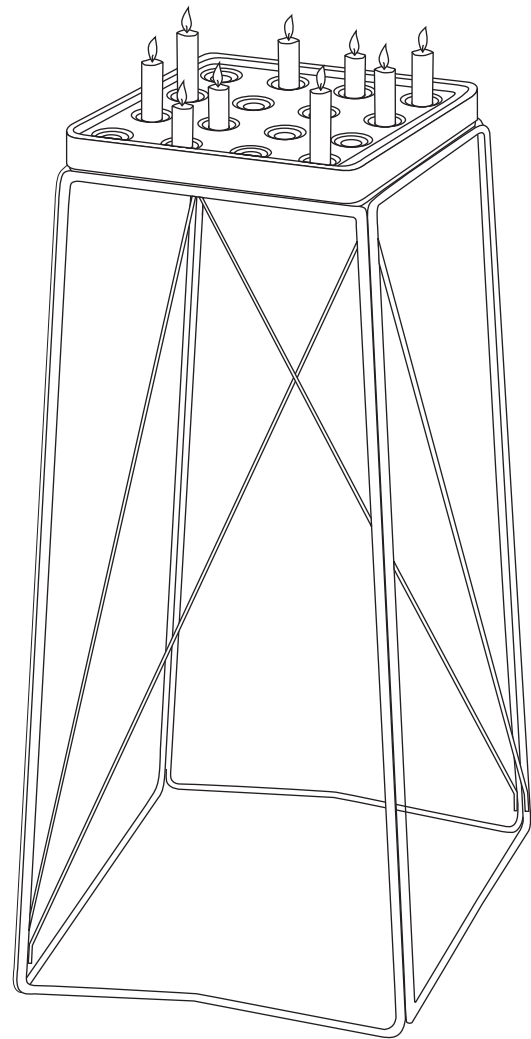

Place The Stumpastaken on The Stand and it's almost a piece of furniture, a high candle stick, a light sculpture.

Lights up e.g. a sittingroom or a hall way.

Material - steel, 5 mm (0.2 in)

Width - 36 cm (14 in)

Height - 70 cm (27.5 in)

Be aware! Never leave a lit candle unattended. Many candles together will give a considerable heat. Several long candles next to each other can bend and melt down.
